About **Web D School**

When we say 'A Great career awaits you!', we totally mean it.

- **Harshavardhan**, Founder & CEO, Web D School

At Web D School, we understand that having an excellent course curriculum and following conventional teaching methods will not help students achieve great careers.

At Web D School, we believe that education isn't just about completing a syllabus – it's about transforming lives.

We're committed to helping every student build a meaningful, successful career. We don't just teach – we walk with you every step of the way, from your first design to your first job.

We truly care about our students' careers and have designed the learning experience at Web D School to enable them to become thorough professionals in their field of choice.

About Advanced GD

Graphic Designing + Motion Graphics

Graphic designers are no longer limited to creating banners, posters, brochures, logos, and illustrations. Today, the industry is looking for proficient designers with expertise in Motion Graphics who can also create motion designs, video advertisements, and text animations. So, it would be wise to learn Motion Graphics design along with the Graphic design course in Chennai, which would open up multiple career opportunities in various fields.

AI Powered Learning

— Unlock the Future

We've added essential artificial intelligence (AI) tools into our curriculum, such as Midjourney, Firefly, and the AI features of Photoshop and Illustrator, allowing our students to create significantly better designs.

We teach you how to automate repetitive designer tasks, develop new ideas, create innovative designs, and improve graphic quality using AI tools.

Career Options

Edtech Industry

The Edtech industry needs designers to create video content, infographics, promotional ads etc.

Digital Marketing companies

Designers create social media ads, infographics, email templates, websites, landing pages, and other digital assets.

Design companies

Design companies offer diverse design services, such as graphic design, UI design, web design, and fashion design.

Big corporates

Designers work with product teams to create logos, advertising campaigns, websites, social media profiles, and more.

Publishing

Publishing companies need designers to create book covers, layouts, brochures, and digital content.

Satellite television

Satellite television companies need designers to create titles, program ads, and other visual content.

Film industry

The film industry needs designers to create motion posters, title animations, and visual editing.

Advertisement Industry

The advertisement industry needs designers to create catchy, innovative, and actionable designs that attract, inform and inspire people.

Youtube & Freelance

Finally, you can create a niche for yourself by becoming a designer cum video editor in the Youtube and freelance space.

Vlogs

Making vlogs might help you build your own brand on YouTube.

Infographic video

Learn how to create video with infographic elements and content together.

Webdians working @ Top MNCs & Start up companies

“

I recently took the graphic design course at Web D School, and it was an excellent experience! It's a well-designed and comprehensive course that provides a solid foundation in graphic design, and the instructors are top-notch. One of the highlights of the course was the practical projects, where we got to apply what we learned to real-time design tasks. This hands-on approach helped me develop my creativity and problem-solving skills, and gave me a portfolio of work to showcase my skills to potential clients or employers. I feel more confident and prepared to pursue a career in graphic design after completing this course.

What our students say about us!

“

I joined Web D school to pursue the advanced graphic design course. The institute has a friendly environment for students to learn. We get to learn from the very basics. Our trainer ensures that we understand the whole process, including tips and techniques and encourages us to aim high and stay motivated. The classes were never boring. The trainers and the staff are considerate and cooperative. We always received constructive criticism that helped us improve. They are providing very good placement support.

Nivetha Manohar
Advanced Graphic Design

“

The best place to learn graphic design. Tutors are industry experts who patiently and thoroughly answer each student's questions in both the classroom and the lab. I strongly recommend Web D School for both online and classroom courses.

Jay Trishnaa
Advanced Graphic Design

“

I took the Advanced Graphic Designing course at Web D School. It was a 5-month course that helped me move forward in my work & improve my graphic design skills. The institution & faculty members have been really supportive in every stage of my course. They trained me well for interviews & got me a good job as well. Thank you, Web D School!

Manikandan Perumal
Advanced Graphic Design

“

I am currently studying graphic design at Web D School, & I am very impressed with the quality of teaching I've received so far. One aspect I particularly appreciate is the emphasis on creativity. Web D School encourages to think outside the box, fostering an environment of creative thinking.
